

Accounting for the Environment: Non-Financial Reporting

Overview/Description

Non-Financial Reporting for Accountants will teach you how to prepare accurate, verifiable data for your organisation's environmental and sustainability reporting requirements. It will provide you with the knowledge and tools to develop important data indicators and help you to effectively deal with information requests, from both internal and external sources. This course will bring value to your current role, enabling you to operate at a more strategic level and contribute to your organisation's sustainability objectives.

Target Audience

- Accountants in business or in Practice
- Company Business Managers

Prerequisites

None

Expected Duration

90 Minutes for the online Modules

Course Objectives

By the end of this course, you will be able to:

- Understand the wide range of standards and guidelines which underpin non-financial reporting
- Apply a data analysis process to extract material information
- Develop accurate metrics for non-financial reporting
- Understand the risks and opportunities associated with non-financial reporting
- Assist with Assurance and verification requirements
- Begin preparing for a move towards Integrated Reporting

Continuing Professional Development

This course can contribute credits towards Continuing Professional Development for members of CPA Australia, the Institute of Chartered Accountants, the Institute of Public Accountants and ACCA Australia.

Resources

The course includes a number of resources which you will have access to throughout your training to support you in applying the knowledge and skills from the course. These include:

- Downloadable excel templates
- Access to blogs and experts
- Current whitepapers

Note: On line courses will be updated by Greenstreets experts if legislation changes and will be made available to users at no additional investment during the licensed term.
